### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 56 is objected to because of the following informalities: it appears that in line 2 of the claim, "a apparatus" should be changed to -- an apparatus --. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 32-37 and 56-59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 32 recites the limitation "said user definition independent of said image data" in line 9. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 56 recites the limitation " said user definition independent of said image data" in line 9. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

Art Unit: 3737

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 1, 2, 10-14, 16, 17, 32-34, 36, 37, 56, 57, and 59 rejected under 35 U.S.C. 103(a) as being unpatentable over Nishihara et al. (US 5,272,625), Nishihara teaches a medical image data managing system (100) comprising a display, an apparatus (50) for managing the image data, wherein the image data comprises 3D volumes, means (30, 32) for manipulating or altering image data, means (20, 22, 24) storing the image data. Since Delestienne teaches a method and system for fetching desirable medical image data for the database units (20, 22, 24), it would have been obvious to an ordinary skill in the art at the time the invention was made to recognize that such retrieval of image data to recreate the medical image would be not substantially be altered in order to accurately display the medical image.

***Allowable Subject Matter***

9. Claims 18-31 and 38-55 are allowed.

Art Unit: 3737

10. Claims 3-9, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. Claims 35 and 58 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

### *Conclusion*

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Delestienne et al. (US 6,377,162 B1) teaches a field service unit for providing interactive filed service of medical diagnostic systems.
